GEN. SCOTT'S BRAVERY. In a speech delivered at Newark, Judge Conrad, of Philadelphia, in answer to a charge of cowardice made against General Scott, produced a document, which was sworn to several years since, as part evidence, on a pen-sion claim. This was the evidence of a soldier at Lundy's Lane, who stated in his affirmation that General Scott, after he was wounded rode to the line where the soldier was stationed, his neck, breast and arm in a gore of blood, which ran down his leg and trickled from his foot upon the ground, and said to the commander of the line, "I am wounded and very weak. I want one of your young men to get up behind me and hold me ing transferred to our successors.

Very respectfully. S. SWAN & CO. on my horse." A young man threw down a musket, and at one spring leaped upon the horse, and they then galloped away to the main body of the army. The excitement produced by reading this document was thrilling in the extreme. The hundreds present rose to their feet and gave most vehement cheers, so that it was some minutes before the speaker could proceed.

### "THAT SAME OLD COON."

A morning or two ago, a good Whig friend of ours saw a large, well-conditioned, highspirited, happy-looking coon, speeding his way towards the city like blazes. It was supposed to be "that same old coon" that created such a mighty hubbub in the country in '40 and '48, and the very thought of which throws Democracy into fits. It was supposed further, and there can be no doubt of the fact, that said coon was coming hither to attend the Convention of the 10th of February. Welcome-thrice welcome-thou ever faithful and glorious old coon! They have had thee dead and buried many a time, since last we saw thee-but, thank God, thou still livest!-Richmond Whig.

#### AN AVAILABLE CANDIDATE. If there be any who think that Mr. Fre-

mont cannot run as well as he did in 1856, the following item from the Mariposa Democrat may serve to enlighten them:

"On Thursday last, Fremont was seen to pass Stockton road, in a buggy, at a rattling speed.— This, of course, excited the curiosity of the peo-ple in that place, but before any conclusion could be arrived at, as to the probable cause, the under sheriff hove in view also at full speed. On being questioned as to the cause of hurry, the officer re plied that he had no time to stop, as he was in haste to overtake Fremont. Whether he effected the arrest we have not yet learned. It is probable, however, that the Colonel had too much start of him. The Col. is hard to catch when he gets a

#### THE PROSPERITY OF TEXAS. A correspondent writing to us from Gon-

zales county, Texas, on the 14th ult., says: "I would that I could describe to you the pros-perous condition of our State at this time. Let it

suffice for me to say that everything in the way of provisions is so cheap, that there is no market to be found. Corn—price merely nominal; pork from 3½(@,4 cents ? D.; beef from 2@,2½ cents ? D.—Our hogs fattened on the mast alone, and our beeves on the grass exclusively. It has never been my good fortune to see a State where land and provisions were so good and cheap-where health was so good, and money so easily made. Texas is emphatically the State for emigrants, and I am proud to see that they are coming by the hundreds. We have ample room, and a hearty welcome for

THE LATE PROF. BOND .- Prof. Wm. C. Bond, Director of the Astronomical Observatory at Harvard College, who died on Saturday night, was a native of Maine, and about seventy years of age. In 1815 the college the wheel, with the amount of the prize that each with regard to observatories and instruments, and in 1839 he was called to the charge of the observatory at Cambridge. He was at this time employed by the United States government to conduct the astronomical and meteorological observations in the Wilkes exploring expedition. Prof. Bond was inventor of a plan for recording electro-magnetic observations, known as the American method. His latest labors were the taking of photographic views or maps of the stars, by means of a camera attached to the great teles-

EASY WAY TO COMPUTE INTEREST,-We give the following as a short and correct plan for computing interest at 6 per cent. for any

"Divide the number of days by 6, and multiply the dollars by the dividend, the result is the in-terest in decimals; cut off the right hand figures and you have it in dollars or cents, thus: What is the interest of \$100 for twenty-one days? 21 divided by 6 is 14: 100 multiplied by 14 is 350 or 35 cents. Again, what is the interest on \$378 for 93 days? 93 divided by 6 is 104; 378 multiplied by 151 is \$5 85 and 9-10."

The Maysville (Ky.) Eagle records a good deed by the Sons of Malta, in that city:— Fifty sacks of flour, as many packs of sugar and coffee and tea and other necessaries, were placed by them on drays and taken around to the windows in the city in need of such things instances, where clothing or fuel were also For any three of the four Reviews ..... needed, they freely gave money to buy those | For all four of the Reviews....

The Charter of this Company offers more favora. ble advantages to the farmer and others, than any other Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium in cash, or by effecting a cash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by becoming a member, and giving a small premium note, the insured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to

year. This is the advantage resulting from the combination of THE CASH AND MUTUAL This Company commenced issuing Policies against loss or damage by fire, on the 16th of March, 1854, since which time over five thousand seven hundred persons have insured and become members of the Company, and over thirty thousand dollars have been paid for losses. Having trebled our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospects of future usefulness.
